Scalability & Future Plan

Date	15 March 2024
Team ID	SWTID-2026-4750
Project Name	Auto Ticket Classification using FLOW DESIGNER
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited rule coverage	Some ticket types may need manual review	Medium
2	High ticket volume	Execution may take longer	High
3	Configuration dependency	Rule changes need testing	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User load Basic workflow User Load	Optimize and monitor flow	
2	Data storage ServiceNow records Data Storage	Review retention and indexing	
3	Performance Condition-based flow Performance	Reduce unnecessary actions	
4	Security Platform access controls Security	Use role-based permissions	

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact

Phase 2	Add more ticket categories	Future	Broader coverage
Phase 3	Add reporting and monitoring	Future	Better visibility
Phase 4	Optimize for higher ticket volume	Future	Improved scalability
