Solution Architecture

Date	15 March 2026
Team ID	SWTID-2026-4750
Project Name	Auto Ticket Classification using FLOW DESIGNER
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides ticket submission and status viewing.	HTML / CSS / Web UI
API Gateway	Receives ticket data and passes it to the workflow.	FLOW DESIGNER workflow endpoint
Microservices	Classifies tickets and routes them based on workflow rules.	FLOW DESIGNER automation
Database	Stores ticket details, category and status for tracking.	Ticket data store
